

HIGH PERFORMANCE POLISHING TECHNOLOGY

AUTOGLOSS COMPOUND PLUS

Fast acting liquid abrasive polishing compound for the most effective and permanent removal of P1500 sanding marks. Combining a rapid cutting/compound application with high gloss polishing performance for a swirl free finish. The Autogloss Compound Plus is the only product required to bring the surface to a high gloss, flawless shine. Compliant with all paint refinish systems.

FEATURES & BENEFITS

- Single stage process** → Superior system efficiency to achieve gloss finish
- Fast cutting abrasive power** → Permanent removal of P1500 scratch marks
- Dry use** → Cleaner and quicker process. No dusting or splatter
- Reduces heat build-up** → Less swirls and holograms
- VOC Free** → Environmentally and user friendly and compliant
- High Gloss Level** → Great for all colours, especially dark ones
- Multi-Substrate** → For all paint surfaces, old, new and fresh
- Silicone free formulation** → Safe for the bodyshop

AUTOGLOSS HIGH-GLOSS PLUS

The Autogloss High-Gloss Plus gives you the superior gloss enhancement on fresh or cured paintwork. With a unique formulation and an advanced polish technology, our Autogloss High-Gloss Plus offers the permanent elimination of light scratches, swirl marks and holograms in the top coat and will help you to achieve that professional showroom finish. Compliant with all paint refinish systems.

FEATURES & BENEFITS

- Fine cut action** → Removal of fine sanding scratches and refreshing aged paintwork
- Material does not dry out, easier to clean up** → Longer working time
- High Gloss Level** → Great for all colours, especially dark ones
- VOC Compliant** → Environmentally friendly and compliant
- No fillers** → No shrink back
- Dry use** → Cleaner, with no dusting or splatter
- Colour restoration** → Professional showroom finish
- Multi substrate** → For all paint surfaces, old, new and fresh
- Silicone free formulation** → Safe for the bodyshop

FULLY INTEGRATED POLISHING SYSTEM PROCESS STEPS

PAINT RECTIFICATION & PRE-POLISHING

RHYNOGRIP FILM LINE

Remove any imperfections in the surface by machine sanding the panel with Rhynogrip Film Line Disc 150mm P1500 and an Interface Pad. Produce a smooth even finish with a matt sheen. Clean area.

PRODUCTS

Rhynogrip Film Line P1500 Disc (available also with Ultravent)
Backing Pad
Interface Pad
INDASA E-Series or A-Series Sander

RHYNOCELL

As a complementary stage in the process, Rhynocell can be used to smoothen the P1500 scratch and make polishing easier.

Sand the panel with Rhynocell Disc MF3000. Produce a smooth finish with a satin sheen. Dry use only for a cleaner process.
